INTRODUCTION

The Cleveland Public Schools operates according to policies developed and established by the board of education. The board, which represents the local community, develops policies after careful study and deliberation. The board will regularly assess the effects of its policies and make revisions as necessary.

This manual contains the policies that govern the Cleveland Public Schools. Policy development in a modern, progressive school system is a dynamic, on-going process. New problems, issues and needs create a continuing need to develop new policies and revise existing ones.

Each person or office should update his or her copy of this manual as new policies are distributed.

PHILOSOPHY

The educational program of the district will focus on the individual. In assisting each individual to become a responsible citizen, the district is contributing to the betterment of our nation and society as a whole. While the curriculum must be broad enough to allow each individual to develop their own interests, the district will place emphasis on the achievement of excellence in core curriculum areas such as reading, writing, mathematics and communications. Education is essential to the development of character, physical and mental health, emotional security and provides the foundation for successful living in an ever changing world.
